1960 GUIDE BOOK

The 1960 13th Edition of the Guide Book (Red Book) was released for sale June 25th. It is still the best available guide to coin values, but in our opinion there is room for a great deal of revising and improvement.

1960 GUIDE BOOK

FULLY ILLUSTRATED

Catalog and Price List—1616 to Date

By R. S. YEOMAN

Through July and August we will pay the postage.

SPECIAL, POSTPAID.....\$ 1.75

The acceptance of the Guide Book as the authority on coin values places quite a responsibility and obligation on the publisher. Values and trends reflected in this catalogue affect the investment of every collector and dealer.

We are sure the publishers want this to be an accurate guide to current retail prices. However, those responsible for the valuations listed are not experienced commercial numismatists and unfortunately, are either not receiving or are not using the information from qualified dealers with the experience and background necessary to give a true indication of realistic market values.

We realize that no one person or group of persons, regardless of qualifications and experience, can write a catalogue to suit everyone. But when certain series sell for little more than half catalogue and others at considerably over catalogue, it would indicate a need for adjustment. This is all intended as constructive criticism in the hope of a more accurate catalogue in the future.

THE PUZZLE OF THE SHEKEL

Every modern religion has sentimental attachments to the land of Palestine, birthplace of Judaism, Christianity, and certainly a major factor in Mohammedism as well.

Coins of the Bible have always attracted students of all faiths and yet there are still some controversial issues not fully solved.

The famous Jewish Shekel, for instance, was originally assigned to the period of the Maccabean Kings of Judaea, about 135 B.C. In recent years almost all experts believe it was issued during the First Revolt of the Jews against the Romans, between 66 and 70 A.D.

The thing that makes this such a difficult problem is the fact that the silver Shekel bears an inscription fitting both periods, viz. "Jerusalem the Holy" and "First (Second, Third, Fourth) year of the Liberation."

The coin is of a thick and unique material, unlike any other coins of neighboring countries---thus it is impossible to compare it with coins of the same period and arrive at any satisfactory conclusions.

The silver Shekels have been dug up in places that have been "sites" for archeological discoveries dating back far beyond the Maccabean period and continuing on beyond the period of the revolt against Rome, thus eliminating still another way of fixing the time of the Shekel issue. That they are genuine ancient coins is beyond all doubt, despite their uniqueness. In weight the Shekel and the rare half Shekel resemble the Greek two and one Drachm coins but these two were issued for many centuries. And the legends are in Aramaic writing rather than Hebrew.

References in the Bible to "shekel" do not necessarily refer to this Jewish coin as the people of Palestine called any two Drachm coin a shekel in their language.

THE FLAMES OF THE REVOLUTION DOLLAR

Hardly had Portugal found respite from its long civil and dynastic wars--which ended with the accession to the throne of young Peter V--when dissatisfaction arose again with the absolutistic government.

By the turn of the 20th Century, the then Prime Minister Franco was universally disliked by the Portuguese. Rebellion started in 1907, and the following year the King, Charles I, and his son Crown Prince Louis Philip, were murdered by the Revolutionaries.

REVOLUTION DOLLAR

(Continued)

His second son Emanuel II hastily ascended the throne but the days of the monarchy were drawing to a close. On October 5, 1910, the King was forced to flee the country and go to Portugal's traditional friend, England.

The October Revolution installed a republic which is still in existence. So jubilant were the new rulers of the country that they could not wait to commemorate the event on coins. Usually, a revolution is honored on coins after it has become stabilized, or even years after, when an anniversary brings it back to mind. But the Portuguese revolutionaries did not wait for the ink to dry on the new Constitution.

PORTUGAL

(Republica Portuguesa)

1 Escudo 1910, Liberty in flag, holding torch/Arms on fasces. Dav-269. Struck in 1914 to commemorate birth of Republic. Ex. Fine \$3.75; Unc. \$5.00

* * *

1 Escudo 1915-16, Head of Liberty/Arms in wreath. Dav-270. Ex. Fine \$3.50; Unc. \$5.00

* * *

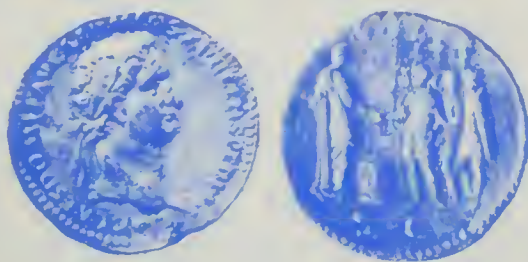

20 Escudos 1953, Female seated/ Shield over globe. Commemorating Decree of January 1954. Brill. Uncirculated..\$3.75

Within a few weeks after the overthrow of King Emanuel, the Lisbon Mint issued a remarkable dollar size silver coin valued at 1 Escudo and dated 1910. The traditional Portuguese shield, superimposed on a fasces, symbol of people's rule, and a globe, are on the reverse. But the obverse has a unique and obviously rather hastily designed type. A woman personifying Liberty, with a national flag draped across her arm, carries a torch in the direction of the word "Republic," with the exact date of the Revolution appearing below. Not since the bloody French Revolution of 1789 has a flaming torch appeared on a coin to denote a successful revolution.

Only a limited number of these coins were issued and only of this one date. The following year a regular, more conservative type Escudo replaced the former Royal coinage.

SESTERTIUS OF DOMITIAN

For fifteen years Domitian sat upon the throne of Rome. He issued a sestertius having his portrait on the obverse and the reverse shows three Legionaires standing before him. Each is bearing a Roman standard. Below is the "S.C." (By consent of the Senate).

Titus, shortly before his death, made all arrangements for this, his younger brother, to succeed him as emperor. That pleased the Roman public. How fortunate they were to have upon the throne a son of the excellent Vespasian, and a brother of the gracious Titus!

Alas! Domitian was as different from his father and brother as if he had never known them. He was jealous, suspicious, incapable, tyrannical. He was soon making false accusations and following them with death penalties. He was in trouble with neighboring nations and getting into wars which he conducted to the loss of the Romans.

Fifteen intolerable years! He was murdered, much to the relief of the populace, September 18, 96 A.D. It is said that he was as cruel as Nero.

That was more than enough to put the hereditary principle in disfavor; the senate chose their new emperor; they selected a man whose integrity of purpose was known, and the praetorians agreed---the good, equitable Nerva was elevated to the throne.

The Bible years end with the last year of Domitian and that small portion of 96 after Domitian's death---the beginning of Nerva's reign.

It was Domitian's effort at stamping out Christianity that banished John to the Isle of Patmos where that disciple "whom Jesus loved"-- is believed to have written the book of Revelation.

--Florence Aiken Banks
